(b) to (f) Development and maintenance of NHs in the country is a continuous process. The targets are fixed on yearly basis for the development of NHs. The target for construction of NHs during the current financial year is 15000 km and achievement is 6604 km till Feb 2017. The development process become slow due to non-achievement of target. The actions are taken against the contractor as per the contract agreement and this compels them to take necessary action for speeding up the construction of NHs.
