(c): Every Railway Project does face impediments like (i) delay in acquisition of land, (ii) statutory clearances like forestry and wild life clearances, (iii) shifting of

services, (iv) cutting of trees, (v) construction of road over bridges and road under bridges by road maintaining agencies etc., which are very much part of the project execution. It is always Railways' endeavour to complete the ongoing projects expeditiously. However, completion of cost shared projects does need appropriate timely reciprocal action by concerned State Governments also.
