GOVERNMENT OF INDIA MINISTRY OF WATER RESOURCES,

RIVER DEVELOPMENT & GANGA REJUVENATION

LOK SABHA

**UNSTARRED QUESTION NO. †4650** 

ANSWERED ON 30.03.2017

## ILLEGAL EXTRACTION OF GROUND WATER

†4650. SHRI KAUSHALENDRA KUMAR

Will the Minister of WATER RESOURCES, RIVER DEVELOPMENT AND GANGA

REJUVENATION be pleased to state:

(a) whether ground water level has been continuously receding due to its indiscriminate and

illegal extraction in the country during the last as well as current plan period and if so, the

details thereof;

(b) whether any effective initiative has been taken for rainwater harvesting to maintain the

level of ground water;

(c) if so, the details thereof and the schemes being run to improve ground water level in the

country; and

(d) the participation of the Government and the people in this initiative for maintaining the

ground water level?

**ANSWER** 

THE MINISTER OF STATE FOR WATER RESOURCES, RIVER DEVELOPMENT AND

GANGA REJUVENATION

(DR. SANJEEV KUMAR BALYAN)

(a) On comparision of ground water level data monitored by Central Ground Water Board

(CGWB) during last 10 years (comprising last and current plan period) with ground water level

data of Pre-monsoon 2016, it is observed that 66% of the wells are showing decline in ground

water level. The reasons for the decline in ground water level throughout the country can be

attributed to increase in the withdrawal of ground water for meeting the demands as well as

deficient and erratic rainfall in the previous years. State-wise details of decline in ground water

levels are given at Annexure.

(b) to (d) Steps taken by the Government for conservation of ground water are available at the

following URL <a href="http://mowr.gov.in/writereaddata/GW\_Depletion.pdf">http://mowr.gov.in/writereaddata/GW\_Depletion.pdf</a>.
