LOK SABHA STARRED QUESTION NO. 154 FOR 26TH JULY, 2017**

REGARDING eCOURT SYSTEM

(a) & (b): The Government of India has an eCourt project as a Mission Mode Project for computerization of all the district and subordinate courts. Key features of the Project include delivery of the services; *inter alia*, case registration, cause lists, daily case status, and final order/judgment. Further, e-filing of cases, e-payment of court fees, process service through email and also through process servers having hand held devices, receipt of digitally signed copies of judgments are key services.

All the district and subordinate courts computerized under eCourts project have been linked to National Judicial Data Grid (NJDG), which is a common repository of case records across the country. The portal also provides online information to citizens including litigants such as details of case registration, cause list, case status, daily orders, and final judgments. Currently litigants can access case status information in respect of over 7 crore pending and decided cases and more than 4 crore orders / judgements pertaining to the computerized district and subordinate courts. As per information received from eCommittee of Supreme Court of India, funds have been released to 16089 courts till date for computerization. The High Court wise details of such district and subordinate courts are as under:

(c) to (e): The eCourts Project equips the Judiciary to use ICT enabled tools to improve court and case management. The availability of online database enables judiciary to plan court administration. It leads to making the justice delivery system across the country more transparent, more accessible and affordable. Availability of case data online imparts transparency to the functioning of courts and facilitates easy access of such data to lawyers and litigants. Thus, ICT enablement of courts increases efficiency of justice delivery system through organised and easy access to case information, and transparency is the eventual outcome. The eCourts Mission Mode Project is scheduled to culminate in 2019.
