

GOVERNMENT OF INDIA
MINISTRY OF SHIPPING

LOK SABHA

UNSTARRED QUESTION NO.3041

TO BE ANSWERED ON 3rd AUGUST, 2017

INLAND WATERWAYS

3041. SHRI BHEEMRAO B. PATIL:
SHRI ANANTKUMAR HEGDE:

Will the Minister of SHIPPING be pleased to state:

- (a) the operational status of the 106 new inland waterways in the country;
- (b) whether any assessment study has been conducted to ascertain the level of pollution likely to be caused as a result thereof;
- (c) if so, the details thereof and if not, the reasons therefor;
- (d) the area of forest land needed to operationalise these inland waterways;
- (e) whether the Government has decided to make ten waterways functional in the first phase in the country;
- (f) if so, the details of these waterways indicating their length along with the beginning and ending points; and
- (g) the names of the rivers along with the availability of average level of water depth in these rivers?

ANSWER

MINISTER OF STATE IN THE MINISTRY OF SHIPPING
(SHRI PON. RADHAKRISHNAN)

- (a): 106 new National Waterways (NWs) have been declared under the National Waterways Act, 2016. Out of these, 32 NWs have been found to be technically feasible for navigational purposes, out of which, development of seven NWs (**Annex-I**) for navigation has been taken up. As per completed feasibility reports, 20 NWs have been found to be technically non-viable for navigational purposes by the Inland Waterways Authority of India (IWAI). In respect of two NWs i.e. NW-53 and NW-101, studies are being conducted by the Maharashtra Maritime Board and Government of Nagaland, respectively. The feasibility studies of the remaining 52 NWs has been undertaken by the IWAI.
- (b)&(c): Environmental Management Plan (EMP) and pollution mitigation strategies are an integral part of the Detailed Project Reports (DPRs) for the development of the NWs for navigational purposes. The Inland Vessels Act, 1917 which is implemented by the State Governments, provides for prevention and control of pollution and protection of inland waterways.
- (d): At present, there is no proposal to acquire forest land for the development of NWs mentioned in **Annex-I**.
- (e)to(g): The development of seven NWs for navigational purposes is being undertaken. The details of these NWs along with their length, beginning and ending points and the availability of average water depth is enclosed in **Annex -II**.

Annexure - I

Sl. No.	Status of Development of Seven new National Waterways	
1	River Barak (NW 16):	Dredging work for development of fairway awarded. Consultant has been engaged for upgradation of terminals at Badarpur, Karimganj and new floating terminal at Silchar.
