ANSWER

MINISTER OF STATE IN THE MINISTRY OF FINANCE
(SHRI SANTOSH KUMAR GANGWAR)

(a), (b), (c), (d) and (e):The GST rate structure for the textile sector was discussed in detail in the GST Council meeting held on 3rd June, 2017, wherein the Council recommended the detailed rate structure for the textile sector. Accordingly, the GST rates for the textile sector have been notified as under:

S. No.	Type of fibre / filament	GST rate			
		Fibre	Yarn	Fabrics*	Garments and made ups**
1.	Silk	Nil	5%	5%	5% / 12%
2.	Wool	Nil	5%	5%	5% / 12%
3.	Cotton	5%	5%	5%	5% / 12%
4.	Other vegetable fibres	Nil / 5%	5%	5%	5% / 12%
5.	Manmade fibres / filaments	18%	18%	5%	5% / 12%

* - 5% GST rate with no refund of unutilized input tax credit.

** - (i) 5% GST rate for garments / made ups of sale value not exceeding Rs.1000 per piece.

(ii) 12% GST rate for garments / made ups of sale value exceeding Rs.1000 per piece.

Thus, the GST rate structure for the textiles sector enables ease of classification and determination of rate.

Representations have been received from Trade and Industry regarding GST rate structure for the sector. The main demand of the textile traders is not to put any tax on fabrics. However, the same cannot be accepted because of the following reasons:

- (a) Nil GST on fabrics will break the input tax credit chain and then the garments / made ups manufacturers will not be able to get the credit of tax on previous stages.
- (b) Nil GST on fabrics will result in zero rating of imported fabrics, while domestic fabrics will continue to bear the burden of input taxes.
- (c) Generally, the GST rates are equal or lower than the pre-GST tax incidence. And therefore, the price of fabrics is not likely to go up.

(f): The GST rates on supply of goods and services have been notified based on the recommendations of the GST Council. The GST rates on goods and services have been fixed taking into consideration, inter alia, the total indirect tax incidence in pre-GST regime, including cascading of taxes. The GST rates so notified are lower than the pre-GST tax incidence on many items of mass consumption such as cereals, pulses, milk, tea, vegetable edible oils, sugar, toothpaste, hair oil, soap, footwear, Childrens' picture, drawing or colouring books, etc.
