ANSWER

उपभोक्ता मामले, खाद्य और सार्वजनिक वितरण राज्य मंत्री
(श्री सी. आर. चौधरी)

THE MINISTER OF STATE
CONSUMER AFFAIRS, FOOD AND PUBLIC DISTRIBUTION
(SHRI C.R. CHAUDHARY)

(a) to (e) : During the year 2015-16, retail prices of pulses specially Tur dal were generally high on account of lower production due to adverse weather condition. The retail price of Rs.200/- per kg was recorded only at few places for small duration. In view of the lower production and increase in prices, Government had directed MMTC to import 5,000 MT of Tur. In pursuance of the order, MMTC imported 4927 MT at the rate of Rs. 79,232/- per MT (landed cost) from Malawi/Mozambique. Based on the requests received, the imported Tur was released to States and Central Agencies at a subsidized rate of Rs. 69/- per kg for direct retailing to consumers. Of the 4927 MT of imported, 4422 MT was released to States/Central Agencies and remaining balance of 505 MT for which no request was received from States was auctioned in the open market. However, due to bumper production of pulses during 2016-17 as well as various measure taken by Government, prices of all major pulses have declined significantly during the current year.
