(a) As per Performance Monitoring Reports (PMR) of Telecom Regulatory Authority of India (TRAI) for the quarter ending March 2017, for Basic Wireline and Broadband Service, Bharat Sanchar Nigam Limited (BSNL) is meeting the Quality of Service (QoS) benchmarks for all the network related parameters in all the service areas including Maharashtra Service area.

BSNL has reported that landline telephone and internet service are functioning satisfactorily in Maharashtra Circle including in Buldhana Parliamentary constituency. However there are few instances of disruption of services due to power failure, transmission media failure and local cable cuts which are attended on day to day basis.

(b) The action taken by the BSNL Maharashtra circle to improve the quality of the said services include:

1. Monitoring of landline and broadband operational parameters/reports on daily/weekly/monthly basis.
2. Improving the external plant by upgradation and rehabilitation activity, in order to address fault rate and fault clearance.
