

GOVERNMENT OF INDIA  
MINISTRY OF WATER RESOURCES,  
RIVER DEVELOPMENT & GANGA REJUVENATION  
**LOK SABHA**  
**UNSTARRED QUESTION NO. 692**  
ANSWERED ON 20.07.2017

**NATIONAL MISSION FOR CLEAN GANGA**

692. SHRI CHANDRAKANT KHAIRE

Will the Minister of WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION be pleased to state:

- (a) the funds provided by the Government till March 2017 to National Mission for Clean Ganga;
- (b) the details of utilization of said funds till March 2017;
- (c) whether the Government is aware that worms have been found in Ganga water at Varanasi, if so, the details thereof and the action taken thereon; and
- (d) the measures being taken to stop the intermingling of dirty water in it directly or indirectly from the nullah of Haridwar, Kanpur, Allahabad, Patna, Sahebgunj, Bhagalpur etc. cities?

**ANSWER**

THE MINISTER OF STATE (IC) FOR YOUTH AFFAIRS & SPORTS AND MINISTER OF STATE FOR WATER RESOURCES, RIVER DEVELOPMENT AND GANGA REJUVENATION

(SHRI VIJAY GOEL)

(a) & (b) An amount of Rs. 4,321.05 crore has been released by the Government of India to National Mission for Clean Ganga from 2011-12 to 2016-17, out of which Rs. 2,291.29 crore have been utilized till March, 2017 .

(c) & (d) In May 2017, Central Pollution Control Board (CPCB) published a report titled “Benthic Macro Invertebrates of River Ganga” in which a study was conducted to find invertebrates in Ganges. The study area cover in the aforementioned study is throughout the River length i.e. from Gangotri to Howrah. There are a large number of invertebrates including worms which are integral part of the river ecosystem. Some examples of the macro invertebrates reported in Varanasi are Baetis, Sinictinogomphus, Orthetrum albistylum speciosum, Sympetrum sp., Zyxomma, Tholymis etc.

Various Interception & Diversion (I&D) and Sewer Network projects are sanctioned by NMCG to stop mixing of polluted water in River Ganga and are at various stages of implementation.
