The development of these clusters under the mission includes economic activities, developing skills and local entrepreneurship, providing infrastructure amenities and generation of direct and indirect jobs across the country. The Mission aims at development of 300 Clusters in all States and UTs. As the programme is progressing, it is too early to assess the success of the Mission.

(b): Ministry has allocated 300 Clusters, 100 clusters each in 3 phases in 29 States and 6 Union Territories. Out of 300 Clusters, 196 Clusters have been approved under Phase-I and Phase-II till date. Ministry has also allocated 100 clusters recently under Phase III, and the respective States are identifying clusters to be developed.
