- (c) whether the progress of DILRMP has been slow in some States as only few States have made substantial progress on this front; and
- (d) if so, the details thereof and the time by which the Government proposes to complete the modernization process, State-wise?

ANSWER

MINISTER OF STATE FOR RURAL DEVELOPMENT
(SHRI RAM KRIPAL YADAV)

(a) to (d): The erstwhile National Land Records Modernization Programme (NLRMP), a Centrally Sponsored Scheme has been revamped as Digital India Land Records Modernization Programme (DILRMP) as a Central Sector Scheme with effect from 01.04.2016 with 100% funding from the Centre. One or more components of the programme have been sanctioned in 457 districts of 36 States/UTs and an amount of Rs.1393 crore has been released to various States / UTs as on 31.12.2017. A statement [based on Management Information System (MIS)] indicating State / UT-wise status of computerization of land records (CLR) is annexed.

As per the information from MIS, it is evident that States like Gujarat, Haryana, Maharashtra, Himachal Pradesh, Jharkhand, Chhattisgarh, West Bengal, Madhya Pradesh, Odisha, Sikkim and Tripura have made considerable progress, whereas States like Uttarakhand, Uttar Pradesh, Punjab, Telangana, North Eastern States (excluding Tripura and Sikkim) and some UTs have to pick up the progress under sanctioned components.

However, the status of a land record is dynamic in nature and its updation is a continuing process. As per Entry 45 in List II of the Seventh Schedule of the Constitution, 'land' and its management is a State subject. The DILRMP attempts to build upon the commonalities that exist in the arena of land records in the various States to develop an appropriate integrated land information management system across the country, on which the different States can also add State-specific needs as they may deem relevant and appropriate.
