**The Government has a holistic approach towards combating LWE wherein it supplements the efforts of the State Governments over a wide range of measures. A National Policy and Action Plan has been put in place that envisages a multi-pronged strategy involving security related measures, developmental interventions and ensuring rights & entitlements of local communities etc. Security related measures include assistance to LWE affected States by providing CAPF Bns, helicopters, UAVs, construction of fortified police stations, funds for modernization of State Police forces, arms and equipment, training assistance, sharing of intelligence etc. On development side, apart from flagship schemes of the Central Government in infrastructure, education, health, skill development, agriculture etc, several initiatives have been taken specifically for development of LWE affected areas. These include focused schemes for development of roads, installation of mobile towers, skill development, improving network of banks and post offices, health and education facilities, particularly in the most affected districts. Recently the Government has approved the Special Central Assistance Scheme which envisages an outlay of Rs 1000 Cr per annum for three years for the most affected LWE districts to cover gaps in critical infrastructure and services.**
