## GOVERNMENT OF INDIA MINISTRY OF SCIENCE AND TECHNOLOGY DEPARTMENT OF SCIENCE AND TECHNOLOGY LOK SABHA UNSTARRED QUESTION NO.124 TO BE ANSWERED ON 18/7/2018

## AGREEMENT IN SCIENCE AND TECHNOLOGY SECTOR

### 124. SHRIMATI SUPRIYA SULE: SHRI DHANANJAY MAHADIK: DR. HEENA VIJAYKUMAR GAVIT: SHRI SATAV RAJEEV:

Will the Minister of SCIENCE AND TECHNOLOGY विज्ञान एवं प्रौद्योगिकी मंत्री be pleased to state:

(a) whether the Department of Science and Technology (DST) has signed InterGovernment Science and Technology (S&T) Cooperation Agreements with countries;

- (b) if so, the country-wise details thereof during the last three years along with the conditions of those agreements;
- (c) the details of the current agreement with each country along with the aim of the said agreements; and
- (d) the benefit that India get out of these agreements?

### ANSWER

# MINISTER OF SCIENCE AND TECHNOLOGY, MINISTER OF EARTH SCIENCES AND MINISTER OF ENVIRONMENT, FOREST AND CLIMATE CHANGE (DR. HARSH VARDHAN)

विज्ञान एवं प्रौद्योगिकी मंत्री और पृथ्वी विज्ञान मंत्री

#### (डा. हर्ष वर्धन)

(a) Yes Madam. The Department of Science & Technology has presently Inter-Government Science & Technology (S&T) Cooperation Agreement with various countries.

(b) Currently DST has S&T cooperation agreements with 80 countries. During last three years Inter-Government Science & Technology (S&T) Cooperation Agreements / MoUs have been signed with Denmark and Indonesia.

(c) All these agreements are aimed to encourage and facilitate developing cooperation in the fields of science, technology and innovation with these countries in the mutually identified areas. The stake-holders include researchers from scientific organizations, academia, R&D laboratories and companies. Under these Agreements / MoUs both sides encourage and facilitate cooperation through appropriate means including:

- i. exchanges of scientific & technical (S&T) information;
- ii. exchanges of scientific & technological experts;
- iii. exchanges of best practices related to science, technology & innovation (STI)
- iv. education, training, fellowship, workshops / seminar
- v. joint research & development (R&D) projects;
- vi. joint industrial R&D projects
- vii. technology transfer
- viii. access to mega facilities
- ix. technology transfer

The aim of these science & technology cooperation agreements with various partner countries which has been signed by the Department is given in Annexure-I.

(d) Cooperation in S&T helps in opening dialogues and developing further relations at bilateral, multilateral and regional levels and is inevitable to maintain pace of progress and growth of scientific research in the country. Such collaborations help in dissemination of information, generation of new knowledge, sharing of expertise, cost and optimal utilization of resources, providing access to advanced facilities and sophisticated instruments which are not available domestically and allow participation in international mega science projects. This in turn enhances the quality and output of scientific research in the country in terms of quality of papers published through International Collaboration.
