

GOVERNMENT OF INDIA
MINISTRY OF DRINKING WATER & SANITATION
LOK SABHA
UNSTARRED QUESTION NO.321
TO BE ANSWERED ON 19.07.2018

Drinking Water in Villages

†321.SHRI MANSHANKARNINAMA:

Will the Minister of DRINKING WATER AND SANITATION be pleased to state:

- (a) the number of villages throughout the country which have been supplied piped drinking water during each of the last three years, State-wise;
- (b) the details of villages in the country which are unable to receive drinking water from any source as on date, State/UT-wise;
- (c) the percentage of households which use drinking water from hand pump, tubewell and open wells, separately; and
- (d) the details of the action plan and budget provisions in this regard for supplying drinking water in the villages through any of the said sources?

ANSWER

MINISTER OF STATE FOR DRINKING WATER AND SANITATION
(SHRI RAMESH CHANDAPPA JIGAJINAGI)

- (a) Under National Rural Drinking Water Programme (NRDWP), the Ministry maintains data regarding coverage of piped water supply in terms of habitations and not in terms of villages. As reported by States on the online portal of Integrated Management Information System (IMIS), the State-wise number of habitations which have been supplied piped water supply during each of the last three years is at Annexure-I.
- (b) & (c) As reported by States / UTs on IMIS, as on 16.07.2018, 78.14% of total rural habitations are fully covered (getting at least 40 litres per capita per day (lpcd) of safe drinking water), 17.85% habitations are partially covered (getting less than 40 lpcd of safe drinking water) and 4.01% habitations are quality affected (where drinking water is contaminated with at least one chemical contaminant). State wise details are at Annexure-II. With regards to usage of drinking water sources, 56.04% of total rural population is covered with piped drinking water supply. The remaining population is using drinking water from other sources like handpumps, tubewell and open wells etc. Separate data for these sources is not maintained by the Ministry.
- (d) Rural drinking water supply is a state subject. This Ministry provides financial and technical assistance to States for coverage of rural drinking water supply through NRDWP. Under NRDWP, the execution of rural water supply scheme is done by the respective State Government. States are free to plan, design and execute Rural Drinking Water Supply Scheme. During 2018-19, an amount of Rs. 7000 Crore has been allocated under NRDWP for coverage of rural water supply schemes and out of which Rs. 1966.67 Crores has been released till date to the States for coverage of drinking water supply.
