- (c) if so, the details thereof including the number of such complaints reported during each of the last three years, company-wise;
- (d) the action taken by the Government against those found indulging in illegal sale of coal: and
- (e) the mechanism put in place by the Government to check illegal sale of coal from the coal blocks?

ANSWER

MINISTER OF COAL AND RAILWAYS (SHRI PIYUSH GOYAL)

(a): Law & Order is a State subject, hence primarily it is the responsibility of the State/District administration to take necessary deterrent action to stop/curb theft / pilferage of coal. Theft/pilferage of coal, if any, is carried out stealthily and clandestinely. As such it is not possible to specify the exact quantum of coal stolen and losses incurred on account of theft/pilferage. Illegal mining of coal is reported to be carried out mainly from abandoned mines, shallow coal seams situated at remote/isolated places from the mines and are scattered over a large area. As per information received from Coal India Ltd., during the raids conducted by security personnel as well as joint raids with the law and order authorities of the State Government concerned, the quantity of coal recovered and its approximate value [Subsidiary-wise and State-wise] during the last three years are as under:-

The coal companies are working in close coordination with the State / local administration to prevent theft / pilferage of coal. The Government of India has launched mobile APP namely "Khanan Prahri" and web APP "Coal Mine Surveillance and Management System" (CMSMS) for monitoring and reporting unauthorised coal mining activities and enable the Law & Order Authority to take suitable action in time.

- (b) No illegal sale of coal from coal blocks has been reported.
- (c) to (e): In view of the above question does not arise.
