

GOVERNMENT OF INDIA
MINISTRY OF AGRICULTURE AND FARMERS WELFARE
DEPARTMENT OF AGRICULTURE, COOPERATION AND FARMERS WELFARE

LOK SABHA
UNSTARRED QUESTION NO. 45
TO BE ANSWERED ON THE 11TH DECEMBER, 2018

IMPACT OF CHANGING WEATHER PATTERNS ON AGRICULTURE

45. PROF. CHINTAMANI MALVIYA:

Will the Minister of AGRICULTURE AND FARMERS WELFARE कृषि एवं किसान कल्याण मंत्री be pleased to state:

- (a) whether sudden change in weather pattern has resulted in crop damage, poor yield and loss of income to the farmers;
- (b) if so, the total loss incurred by farmers during each of the last three years and the current year in each State/UT on this account;
- (c) whether the sudden change of climate has also resulted in heavy rains, deficient rains, drought etc., if so, the regions prone to this abnormal weather patterns affecting agriculture and the farmers; and
- (d) the contingency plan drawn by Government to overcome climate change?

ANSWER

MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE AND FARMERS WELFARE

कृषि एवं किसान कल्याण मंत्रालय में राज्य मंत्री (SHRI GAJENDRA SINGH SHEKHAWAT)

(a): As per the Ministry of Earth Science, there is no evidence of change in weather pattern over the country. However, there have been extreme weather events in the recent past including extended dry periods, floods, hailstorms, cyclonic rains and winds etc., which caused damage to standing crops and ultimately poor yield of crops.

(b): The State Government is primarily responsible for taking necessary relief measures in the wake of natural calamities. For undertaking relief measures, funds are available with the State Government in the form of State Disaster Response Fund (SDRF), Additional financial assistance, over and above SDRF, is considered from National Disaster Response Fund (NDRF) for natural calamities of severe nature and is approved on the basis of Memorandum received from State Government, in accordance with established procedure.

Agricultural crops have been affected due to calamities, the details of the assistance provided under natural calamities during the last three years is given at Annexure-I, During the year 2018-19 (as on 06.12.2018), the State Government of Andhra Pradesh, Karnataka, Maharashtra, Jharkhand, Gujarat and Rajasthan had declared drought and submitted Memorandum seeking financial assistance from NDRF. Inter Ministerial Central Teams have been constituted for on the spot assessment of drought situation in these states. The state Government of Odisha has also declared drought but has not submitted any Memorandum.

(c): As per available information, the scientist of India Meteorological Department and other institutions has found significant changes in the rainfall pattern, extreme events etc. Both flood and drought in individual years does not depend on climate change. However, as an impact of climate change, it is being reported that the spatial variability, intensity and frequency of extreme events like heavy rainfall have increased. Unseasonal/heavy rains accompanied with hailstorm, cyclone etc. has affected the states is given at Annexure –II.

(d): Central Research Institute for Dryland Agriculture (CRIDA) of Indian Council of Agricultural Research (ICAR) has prepared districts wise contingency plan for 633 districts. Under contingency plan, the States are advised to use short duration, drought tolerant, alternate crops, flood/water logged tolerant varieties besides use of new technologies on crop cultivation. In order to insulate farmers against the loss of crop due to natural calamities, Government of India has launched Pradhan Mantri Fasal Bima Yojana (PMFBY) from April 2016.

**Annexure –I as reference in part (b) by Lok Sabha Unstarred Question No. 45
due for 11.12.2018**

**Assistance approved from National Disaster Response Fund (NDRF) for Natural
Calamities (Drought & hailstorm) in the States from (2015-16 to 2017-18)**

(Rs in Crore)

During - 2015-16				
S. No	State	Calamity	Amount sought by the state	Amount approved by
