Extracts from National Framework for Malaria Elimination, 2016-30**A. Categorisation of districts**

Category	Definition	Number of districts
Category 0	Districts/units historically considered to be without local transmission and reporting no case for last 3 years. Vigilance will be maintained in these districts to prevent reintroduction of malaria in view of climate change	75
Category 1	Districts/units having API less than 1 per 1000 population	448
Category 2	Districts/units having API 1 and above, but less than 2 per 1000 population. These are targeted for elimination in the subsequent years	46
Category 3	Districts/units having API 2 and above per 1000 population. These are positioned for elimination targeting in the subsequent years	109

B. Categorisation of states and timeline for malaria elimination

Based on the above categorisation, staggered targets have been given for elimination of malaria by the States as follows:

1. 15 low transmission States and UTs (with State and all its districts reporting an API of less than 1 case per 1000 population at risk) have been identified for attainment of zero indigenous malaria transmission by 2020 and prevention of re-establishment of local transmission of malaria.
2. 11 moderate transmission States and UTs (with an API of less than 1 case per 1000 population at risk, but some of their districts are reporting an API of 1 case per 1000 population at risk or above) have been identified for attainment of zero indigenous malaria transmission by 2022 and prevention of re-establishment of local transmission of malaria.
3. 10 States/UTs (with an API of 1 case per 1000 population at risk or above) will reduce the incidence of malaria to less than 1 case per 1000 population by 2024 and attain zero indigenous malaria transmission by 2027 and prevent re-establishment of local transmission of malaria.
4. All States to achieve zero indigenous transmission by 2027 and the country to get WHO certified malaria free status at the national level by 2030 and maintain status quo thereafter.
