

GOVERNMENT OF INDIA  
MINISTRY OF JAL SHAKTI,  
DEPARTMENT OF WATER RESOURCES, RIVER DEVELOPMENT & GANGA REJUVENATION  
**LOK SABHA**  
**UNSTARRED QUESTION NO. †3068**  
ANSWERED ON 11.07.2019

**STATUS OF RIVER INTER-LINKING**

†3068. SHRI SUMEDHANAND SARSWATI

Will the Minister of JAL SHAKTI be pleased to state:

- (a) whether the Government proposes to inter-link the rivers in the country;
- (b) if so, the details thereof and the time by which work on this action plan is likely to commence;
- (c) whether few States become flooded whereas others face drought during monsoon season;
- (d) if so, whether the Government is working on any action plan to channelise the water of flood affected areas to drought affected areas; and
- (e) if so, the details thereof?

**ANSWER**

THE MINISTER OF STATE FOR JAL SHAKTI & SOCIAL JUSTICE AND EMPOWERMENT  
(SHRI RATTAN LAL KATARIA)

(a) & (b) The National Perspective Plan (NPP) was prepared by the then Ministry of Irrigation (now Ministry of Jal Shakti) in August 1980 for water resources development through inter basin transfer of water, for transferring water from water surplus basins to water-deficit basins. Under the NPP, the National Water Development Agency (NWDA) has identified 30 links (16 under Peninsular Component and 14 under Himalayan Component) for preparation of Feasibility Reports (FRs). The details of above river linking projects viz., rivers, States concerned are given at **Annexure**.

Under the NPP, four priority links have also been identified for preparation of Detailed Project Reports (DPRs) under the Peninsular Rivers Component viz; Ken-Betwa link project (KBLP), Damanganga-Pinjal link project, Par-Tapi-Narmada link project and Godavari-Cauvery link project.

The stage of implementation of a project would be reached after its DPR is prepared with the consensus of concerned States and the requisite statutory clearances are obtained. The estimated time for implementation will depend upon the construction schedule as per DPR.

(c) to (e) Due to the vagaries in monsoon rainfall, some parts of the country face flood whereas other parts face drought. The interlinking of rivers project envisages diversion of waters from surplus basins to deficit basins through inter basin water transfer links. The interlinking of rivers project will provide benefits to irrigation, domestic and industrial needs, hydropower apart from the incidental benefits of flood control, drought mitigation, navigation, water supply, fisheries, salinity and pollution control etc. The interlinking of rivers projects has been considered by Government on high priority and has been taken up in consultative manner.
