- (c) the number of clusters under the said programme that export their products;
- (d) whether the Government has any scheme for the unorganised MSME clusters in the country; and
- (e) if so, the details thereof and if not, the reasons therefor?

ANSWER

MINISTER OF MICRO, SMALL AND MEDIUM ENTERPRISES
(SHRI NARAYAN RANE)

(a) to (e): A statement is laid on the Table of the House.

**STATEMENT REFERRED TO IN REPLY TO PART (a) to (e) OF THE LOK SABHA
STARRED QUESTION No.*114 FOR ANSWER ON 09.02.2023.**

(a): Under Micro and Small Enterprises - Cluster Development Programme (MSE-CDP), setting up of Common Facility Centre (CFC) in a cluster is supported. MSE-CDP is a demand driven scheme. Under the scheme, 24 projects of CFCs in various clusters (including 04 in Maharashtra) have been developed all over country during the last three years and the current year [i.e. financial year 2019-20 to 2022-23 (till 31.01.2023)]. The State/UT-wise details are enclosed (**Annexure-I**).

(b) & (c): The details for the clusters of Maharashtra are enclosed (**Annexure-II**).

(d) & (e): The Programme aims at enhancing the sustainability, competitiveness and growth of MSEs in a cluster by addressing common issues such as improvement of technology, skills, quality and market access etc. In MSE-CDP, a cluster is defined as “a group of enterprises located within an identifiable and contiguous area (to a large extent) or a value chain that may go beyond a geographical area and producing same/ similar products/complementary products/services, which can be linked together by common physical infrastructure facilities”. It must address their common challenges, which is the core reason to take up the project under this scheme.

The Ministry of MSME is also implementing Scheme of Fund for Regeneration of Traditional Industries (SFURTI) for organizing the Traditional Industries and artisans into clusters to provide support for their long-term sustainability and economies of scale.
