The **second tier** is a structured independent quality monitoring at the State level through State Quality Monitors (SQMs) to ensure that every work is inspected at initial stage, intermediate stage and final stage of the construction. Under the **third tier**, which is at the national level, independent National Quality Monitors (NQMs) are deployed for random inspection of road works to monitor quality and also to provide guidance of senior professionals to the field functionaries.

In the NQM inspections conducted from April 2019 to 17th March, 2023, 8.09% completed works, 6.45% ongoing works and 22.21% maintenance works have been graded as Unsatisfactory.
