

GOVERNMENT OF INDIA
MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE

LOK SABHA
UNSTARRED QUESTION NO. 1883
TO BE ANSWERED ON 13/03/2023

Waste Disposal System

1883. SHRI GYANESHWAR PATIL:
SHRI NAYAB SINGH

Will the Minister of ENVIRONMENT, FOREST AND CLIMATE CHANGE be pleased to state:

- (a) the schemes and policies of the Government to manage waste disposal system in every district of the country specially in the States of Haryana and Madhya Pradesh to decrease carbon emission in small cities and the tribal areas;
- (b) whether the Government has conducted any research and development of permanent waste disposal system around landfill areas for cleanliness in these area and reducing emission of toxic gases;
- (c) if so, the details thereof; and
- (d) the details of special steps taken by the Government to make the above said areas garbage free

ANSWER

MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE
(SHRI ASHWINI KUMAR CHOUBEY)

(a) to (d): The Solid Waste Management Rules, 2016, provide the statutory framework for management of solid waste in the country. As per the Rules, the local authorities and village panchayats are responsible for solid waste management. Under Swachh Bharat Mission, the Central Government provides additional central assistance to State and UTs for solid waste management in urban and rural areas across the country including in the States of Haryana and Madhya Pradesh, as per scheme guidelines. The Central Government has launched Swachh Bharat Mission Urban 2.0 (SBM-U 2.0) in October 2021 with overall vision of creating "Garbage Free Cities", to be executed over the next five years, which would involve achieving the target that all Urban Local Bodies will become at least 3-star certified (as per Star Rating Protocol for Garbage Free Cities), with at least 80% wards covered with door to door collection, 60% source segregation practised in each ward, and at least 80% of municipal solid waste being scientifically processed. Under the Scheme of Swachh Bharat Mission Urban 2.0, additional Central Assistance is provided to States and Union Territories for solid waste management by Ministry of Housing and Urban Affairs, as per scheme guidelines. Under Swachh Bharat Mission – Grameen Phase II, Department of

Drinking Water and Sanitation has issued operational guidelines to the States and Union Territories which include solid waste management activities at the village level.

The Schedule I of the Solid Waste Management Rules, 2016, provides specification for sanitary landfills, which includes criteria for (i) site selection, (ii) development of facilities at the sanitary landfill, (iii) criteria for pollution prevention including leachate management, (iv) air and water quality monitoring including landfill gas control system to minimize odour and prevent off-site migration of gases, and (v) operation of landfill and closure on completion of landfilling. The Criteria for closure of and rehabilitation of old waste dumps have also been prescribed under the Rules. Central Pollution Control Board has also issued guidelines for Disposal of Legacy Waste (Old Municipal Solid Waste). Directions under Section 5 of Environment (Protection) Act, 1986, have been issued to all State Pollution Control Boards / Pollution Control Committees for enforcement of provisions of Solid Waste Management Rules, 2016, regarding biomining of legacy waste.
