The Fund of Funds for Startup Scheme was approved and established in June, 2016 with a corpus of Rs. 10,000 crore, with contribution spread over the 14<sup>th</sup> and 15<sup>th</sup> Finance Commission Cycle based on progress of implementation, to provide much-needed boost to the Indian Startup ecosystem and enable access to domestic capital. The scheme is operationalized by Small Industries Development Bank of India (SIDBI).

Under FFS, the Scheme does not directly invest in startups, instead provides capital to SEBI-registered Alternative Investment Funds (AIFs), known as daughter funds, who in turn invest money in growing Indian startups through equity and equity-linked instruments. SIDBI has been given the mandate of operating this Fund through selection of suitable daughter funds and

overseeing the disbursal of committed capital. AIFs supported under FFS are required to invest at least 2 times of the amount committed under FFS in startups.

Under FFS, in the last three years viz. 2020, 2021 and 2022, Rs. 4,857 crore has been committed by SIDBI. The year-wise break-up of the amount committed to the AIFs under the Scheme specifically in the last three years viz. 2020, 2021 and 2022 is as under:

Under SISFS, as per provisions of the Scheme, the Government has constituted an Experts Advisory Committee (EAC) which is responsible for the overall execution and monitoring of the SISFS. The EAC evaluates and selects incubators for allocation of funds under the Scheme.
