ANSWER

THE MINISTER OF STATE IN MINISTRY OF FINANCE (SHRI PANKAJ CHAUDHARY)

(a) to (c): Average national gross domestic GST collection in the current FY (till Feb, 2023) has shown year-on growth at 21% while the gross domestic GST collection in the State of Punjab has grown at 14%. It would not be proper to compare the growth rates of various States because of different economic and geographical conditions, consumption basket and one-time revenue collection in a particular year in a state, etc.

The Government, on the recommendations of the GST Council, has taken various measures to improve the GST compliance and increase the GST collection in the country including Punjab. These inter-alia include:-

- Structural changes like calibration of GST rates for correcting inverted duty structure and pruning of exemptions;
- ii. Measures for improving tax compliance such as mandating e-way bill, ITC matching, mandating e-invoice, deployment of artificial intelligence and machine-based analytics, aadhaar authentication for registration, calibrated action on non-filers, stop filers, targeted assessment-based action on risky tax payer, integration of e-way bill with fast tag etc.
- iii. Deployment of system based analytical tools and sharing of system generated red flag reports with Central as well as State Tax authorities for identification of tax evaders.

In addition, inputs/ suggestions being received regularly from various trade and industries, Centre and States, are discussed threadbare in the GST Council meeting and implemented.
