ANSWER

THE MINISTER OF ROAD TRANSPORT AND HIGHWAYS

(SHRI NITIN JAIRAM GADKARI)

(a) to (c) At present all the National Highways are constructed as per the standards and specifications of Indian Road Congress. National Highways Authority of India (NHAI) has provided 1.4 km of RCC covered drain on both sides of NH-12 (Jabalpur Bhopal section) at the junction location with Jhansi Nagpur NH. The stretch from Km 99.005 to Km 415.089 of NH-26 (Jhansi Nagpur NH) is also being maintained by NHAI. At the junction location with NH-12, lined drain between the main carriageway and slip road has been provided on both sides in 1.02 Km length. Earthen drain and other cross drainage structures for proper drainage along and across the highway as per site requirements have also been provided.
