Government of India has adopted multi-pronged strategies to prevent cross-border intrusion, and secure our territories, which inter-alia include deployment of Border Guarding Forces along the International Borders, effective domination of the borders by patrolling, laying Nakas, manning observation posts along the borders, vulnerability mapping of

Border Out Posts (BOPs), deployment of surveillance equipment, strengthening of intelligence network, erection of border fencing & floodlighting and deployment of technological solutions in non-feasible areas like riverine gaps, etc.
