

GOVERNMENT OF INDIA
MINISTRY OF WOMEN AND CHILD DEVELOPMENT

LOK SABHA
UNSTARRED QUESTION NO. 3181
TO BE ANSWERED ON 06.12.2019

NATIONAL NUTRITION MISSION

3181. SHRI VIJAY KUMAR:

Will the Minister of WOMEN AND CHILD DEVELOPMENT be pleased to state:

- (a) the salient features of the National Nutrition Mission launched to attain malnutrition free India for children;
- (b) whether the extent of success of programmes being run under this mission has been evaluated, if so, the outcome thereof;
- (c) whether the Government proposes to prepare a programme laying special focus on the fact that extremely malnourished children belong to the poor and deprived section of society; and
- (d) the allocation made to achieve the targets of the mission during the current financial year, State-wise?

ANSWER

MINISTER OF WOMEN AND CHILD DEVELOPMENT
(SHRIMATI SMRITI ZUBIN IRANI)

- (a) Government is implementing the POSHAN Abhiyaan since 18th December, 2017 to address the problem of malnutrition in the country. The salient features of the Abhiyaan inter-alia include ensuring convergence with various programmes; incentivizing States/ Union Territories for achieving targeted goals; Information and Communication Technology enabled Integrated Child Development Services-Common Application Software; Evaluation by NITI Aayog; Setting up of National Nutrition Resource Centre (NNRC) at National level and State Nutrition Resource Centre (SNRC) in each State/Union Territory; Community Mobilization & Behaviour Change & Communication, Awareness Advocacy and Information Education Communication; Jan Andolan by educating people on nutritional aspects; Innovation; Strengthening human resource; measuring height and weight of children below 6 years of age for early detection of stunting and wasting; strengthening of Training & Capacity Building etc.
- (b) The results of the POSHAN Abhiyaan can be known after the programme has completed its approved period. However, in the meantime, as per the report of Comprehensive National Nutrition Survey (CNNS) conducted by UNICEF, prevalence of stunting, wasting and underweight among children is 34.7%, 17% and 33.4% respectively, which is an improvement and reduction from the levels reported in National Family Health Survey-4.

- (c) The main purpose of the POSHAN Abhiyaan is to improve the nutritional status of children and reduce the level of under-nutrition. For this purpose, ICDS-CAS (ICDS-Common Application Software) enables growth monitoring of children with the help of auto plotting of growth chart on the mobile application. Children (0-5 years) are weighed and their height measured at the Anganwadis across the country and their data are entered in the ICDS-CAS application. Thus, it enables monitoring of nutritional status of children across the country on monthly basis. SMS alerts are sent to the concerned authorities for taking remedial action. Severely Acute Malnourished children with medical complications are referred to Nutrition Rehabilitation Centres by the health functionaries.

- (d) State-wise details of fund released under POSHAN Abhiyaan during 2017-18, 2018-19 and the current year is at Annexure-I.

**Annexure referred to reply to Part (d) of Lok Sabha Un-Starred Question No. 3181
