STARRED QUESTION NO. 220 DUE FOR REPLY ON 9TH MARCH, 2021.**

(a) & (b): In order to enhance production and productivity of food crops, the Government is implementing a Centrally Sponsored Scheme of National Food Security Mission (NFSM) since 2007-08 in the country. The mission aims at increasing foodgrain/food crop production through area expansion in niche regions and productivity improvement. Under NFSM, support is given for promotion of food crops viz., rice, wheat, pulses, nutri cereals (jowar, bajra, ragi & small millets), coarse cereals (maize & barley) and sugarcane. Assistance is given to the farmers, through States/Union Territories (UTs), for interventions like seed production, cluster demonstration on production and protection technology, certified seed distribution of newly released varieties/hybrids, integrated nutrient and pest management, distribution of plant protection chemicals, bio-pesticides, soil ameliorants, water saving devices like sprinkler sets, irrigation pipes, pumpsets and raingun, improved farm implements/tools etc., and trainings to farmers. The mission also provides support to Indian Council of Agricultural Research (ICAR) & State Agriculture Universities (SAUs)/ Krishi Vigyan Kendras (KVKs) for technology back stopping and transfer of technology to the farmer under supervision of Subject Matter Specialists/Scientists. The research organizations are supported for undertaking research projects that can help enhancing production and productivity of food crops.
