- (a) The Central Government has taken several initiatives to address the issue of timely and accurate data dissemination on public education system. To collect timely and accurate data, a well-functioning and sustainable Educational Management Information System called Unified District Information System for Education Plus (UDISE+) has been launched in 2018-19. The Data Capture Format of the Unified District Information System for Education Plus (UDISE+) 2018-19 contains data on geographical location of school. The schools fill up the UDISE+ data and it is verified by the concerned State/UT Government.
- (b) and (c) Geographic Information System (GIS) mapping of schools is a continuous process. The number of schools for which geographic location has been provided by the schools, as per UDISE+ 2018-19 is given at **Annexure**.
