INDUSTRIAL CORRIDOR PROJECTS

1582. SHRI GOPAL JEE THAKUR:

Will the Minister of COMMERCE AND INDUSTRY be pleased to state:

(a) whether the Government is developing a number of industrial corridor projects in the country under National Industrial Corridor Development Programme with the objective of developing future industrial towns in the country;

(b) whether it will create employment opportunities and boost economic growth resulting in socio-economic development;

(c) if so, the details thereof;

(d) whether the Government has any plans/policy to develop industrial towns in Bihar and Mithila region under this programme; and

(e) if so, by when and the details thereof?

ANSWER

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE & INDUSTRY (SHRI SOM PARKASH)

(a) to (c): Government of India is developing various Industrial Corridor Projects as part of National Industrial Corridor Programme which is aimed at development of greenfield industrial cities in India in order to compete with the best manufacturing and investment destinations in the world. National Industrial Corridor Development & Implementation Trust (NICDIT) has been constituted for unified development of Industrial Corridors in the country. Delhi Mumbai Industrial Corridor (DMIC) is the first Industrial Corridor which is being implemented in the country wherein substantial progress has been made. Four industrial nodes under implementation in Delhi Mumbai Industrial Corridor (DMIC) are as under,

i. Dholera Industrial City, Gujarat (22.5 sq. km)
ii. Shendra Bidkin Industrial Area, Maharashtra (40 sq. km)
iii. Integrated Industrial Township, Greater Noida, Uttar Pradesh (745 acres)
iv. Integrated Industrial Township, Vikram Udyogpuri, Ujjain, Madhya Pradesh (1100 acres)

Further, Government of India has accorded approval for development of 11 Corridors (32 projects) in four Phases as part of National Master Plan for providing multimodal connectivity to economic zones. The corridor wise details of nodes/projects are at Annexure. These projects are under different stages of conceptualization/development/implementation. The Industrial Corridors program is aimed at providing multi modal connectivity with complete “plug and play” infrastructure till the plot level along with building resilient and sustainable future ready cities. The development of these corridors is aimed to expand the industrial output, increasing employment opportunities, provide better living and social facilities for the new and growing workforce. It is expected to enhance India’s competitiveness in manufacturing through creation of quality infrastructure ahead of demand and keep the developed land parcels ready for immediate allotment for attracting investments into manufacturing and positioning India as a strong player in the Global Value Chain. During 2018-19 and 2019-20, the total number of employment generated (direct & indirect) is 9,000 and 8,000 respectively.

(d) & (e): As part of Amritsar Kolkata Industrial Corridor (AKIC), State Government of Bihar has identified site at Gamhariya, Dobhi block, Gaya district for establishment of Integrated Manufacturing Cluster (IMC) and details are awaited from State Government for initiation of project development activities.
