

GOVERNMENT OF INDIA
MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE

LOK SABHA
UNSTARRED QUESTION No. 3914
TO BE ANSWERED ON 19.03.2021

Premature Deaths due to Air Pollution

3914. SHRI GAURAV GOGOI:

Will the Minister of ENVIRONMENT, FOREST AND CLIMATE CHANGE be pleased to state:

- (a) whether the Government is aware that more than one million premature deaths are attributed to air pollution and if so, the details thereof;
- (b) whether air pollution is a major factor for death of children under five years of age;
- (c) whether the Government recognises air pollution as a health emergency in the country and if so, the details thereof;
- (d) whether the Government's initiatives to reduce pollution have been successful so far and if so, the details thereof and if not, the reasons therefor; and
- (e) whether the Government proposes to increase funds to address the situation of worsening air quality in the country?

ANSWER

MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE
(SHRI BABUL SUPRIYO)

(a) and (b)

There is no conclusive data available to establish a direct correlation of death/disease exclusively with air pollution. Air pollution is one of the many factors affecting respiratory ailments and associated diseases. Health is impacted by a number of factors which includes food habits, occupational habits, socio-economic status, medical history, immunity, heredity, etc., of the individuals apart from the environment.

(c)

Considering the impacts of air pollution on human health Government of India launched National Clean Air Programme (NCAP), which is very comprehensive plan to tackle air pollution problem across the country in a focussed manner to achieve 20 % to 30 % reduction in PM₁₀ and PM_{2.5} levels by 2024 from 2017 levels. The concerned ministries, State Governments, Research Institutes, Industries, etc. are partner in this effort. Under NCAP, a National Knowledge Network (NKN) has been constituted with a group of experts from IITs and Institutes of Repute as an advisory board for providing capacity building, State of art technologies, suggestions, advisories regarding air pollution mitigation and abatement to CPCB, SPCB and ULBS.

Further, on 15th August 2020, the Hon'ble Prime Minister also announced to improve air quality in more than 100 cities. Hon'ble Prime Minister has also launched Air Quality Index (AQI) in 2015, which provides air pollution information and health effect in simple form, which can be understood even by common persons. National Air Quality Standards are also based on health consideration.

Government has taken several steps for mitigation of air pollution such as introduction of BS-VI, expansion of Metro, operationalization of Eastern and Western peripheral expressways, shifting of industries to PNG, waste processing plants, online round the clock monitoring of red category industries, etc. The details of initiatives taken by government to combat air pollution is at **Annexure**.

While the Government is making concerted efforts to mitigate air pollution, the citizens should also extend support for the following activities such as:

- Renew your Pollution Under Control Certificate timely.
- Avoid idling of engines.
- Plan your errands to reduce travel time and trips.
- Adopt clean modes of transport.
- Prefer cycles/ e-bikes for short trips.
- Adopt public transportation wherever feasible.
- Avoid Congested routes. Segregate household waste
- Never burn waste
- Take recyclable waste to collection centres & earn from waste too
- Compost leaves and garden waste
- Avoid vigorous sweeping of leaves in gardens/ parks – use wide rakes
- Dispose e-waste responsibly.
- Adopt green good deeds and encourage others too.
- Use public grievance redressal apps to inform air polluting activities to authorities
- Share about ongoing clean initiatives with others.

(d)

Concerted actions taken has resulted in improvement trend in Air Quality Index of Delhi and NCR area:

Air Quality Index	2016	2017	2018	2019
Number of Good to Moderate days	108	152	159	182
Number of Poor to Severe days	246	213	206	183

(e)

In Financial Year 2019-20 and 2020-21 funds to the tune of 336.8 crores have been sanctioned to non-attainment cities under NCAP for initiating actions such as expansion of monitoring network, construction and demolition waste management facilities, non-motorised transport infrastructure, green buffers, mechanical street sweepers, composting units etc. ₹ 4400 crores have been allocated to 42 million plus cities in FY 2020-21 for

tackling the problem of air pollution of which ₹2200 crores have been released. Further, an amount of ₹ 2217 crores has been allocated for FY 2021-22 for improvement of air quality in these cities. A provision of 1,41,678 crores over a period of 5 years from 2021-2026 has been made for Urban Swachh Bharat Mission 2.0 with a focus on air pollution reduction by effectively managing waste from construction-and-demolition activities and bio-remediation of all legacy dump sites.

CENTRAL GOVERNMENT INITIATIVES TO COMBAT AIR POLLUTION

Based on air quality data, 122 non-attainment cities (NACs) have been identified under NCAP and City Specific Clean Air Action Plans have been prepared and approved for 111NACs. The other measures taken by the Government includes:

i. Vehicular Pollution Control

- Leapfrogging from BS-IV to BS-VI norms for fuel and vehicles since April, 2020.
- Network of Metro rails for public transport are enhanced and more cities are covered.
- Development of Expressway and Highways are also reducing the fuel consumption and pollution.
- Introduction of cleaner/alternate fuels like CNG, LPG, ethanol blending in petrol.
- Faster Adoption and Manufacturing of Electric Vehicles (FAME) -2 scheme has been rolled out
- Permit requirement for electric vehicles has been exempted.
- Promotion of public transport and improvements in roads and building of more bridges to ease congestion on roads.

ii. Industrial Pollution Control

- Stringent emission norms for Coal based Thermal Power Plants (TPPs).
- Pet coke and furnace oil have been banned as fuel in Delhi and NCR States.
- Industrial units shifting to PNG.
- Installation of on-line continuous monitoring devices in highly polluting industries.
- Shifting of Brick kilns to zig-zag technology for reduction of pollution

iii. Waste Management

- Notifications of 6 waste management rules covering solid waste, plastic waste, e-waste, bio-medical waste, C&D waste and hazardous waste.
- Setting up infrastructure such as waste processing plants.
- Extended Producer Responsibility (EPR) for plastic and e-waste management.
- Ban on burning of biomass/garbage.

iv. Crop Residue Management

- Under Central Sector Scheme on 'Promotion of Agricultural Mechanization for in-situ management of Crop Residue in the States of Punjab, Haryana, Uttar Pradesh and NCT of Delhi', agricultural machines and equipment for in-situ crop residue management are promoted with 50% subsidy to the individual farmers and 80% subsidy for establishment of Custom Hiring Centres.

i. Monitoring of Air Quality

- Expansion of air quality monitoring network under National Air Quality Monitoring Programme (NAMP)
- Implementation of Air Quality Early Warning System for Delhi. The system provides alerts for taking timely actions.

v. Allocation of funds

- Rs. 7365.82 Crores was allocated for Solid Waste Management under Urban Swachh Bharat Mission from 2014-2019.
- Under Atal Mission for Rejuvenation and Urban Transformation (AMRUT) scheme Rs. 1436 Crore have been allocated for non-motorised urban transport and Rs. 1768 Crores for green spaces and parks for five years from FY2015-16 to FY2019-20.
- ₹ 1726.67 crores have been released for crop residue management in the States of Punjab, Haryana, Uttar Pradesh and NCT of Delhi, during the year 2018-21.

vi.

vii. Public Participation

- This Ministry has an ongoing Environment Education, Awareness and among all sections of the society, especially school and college level students and to mobilize people's participation for conservation of environment.
- The Green Good Deeds (GGDs), a social movement, is one of the components of the scheme aimed to inculcate green good habits and behaviour among all sections of the society to take green social responsibility such as minimizing the use of single-use plastic, celebrating Green Diwali, use of public transport, avoid personal car and promoting car pool, regular check-ups to get Pollution Control Certificate (PUC), save electricity, save water, avoid congested lanes etc. The detailed suggestive list of good deeds is available at <http://164.100.160.232/sbhb/GoodDeeds.aspx>
