

GOVERNMENT OF INDIA  
MINISTRY OF JAL SHAKTI  
DEPARTMENT OF DRINKING WATER AND SANITATION

**LOK SABHA**  
**UNSTARRED QUESTION NO. 4892**  
TO BE ANSWERED ON 25.03.2021

**SUPPLY OF PURE DRINKING WATER**

†4892. SHRI VIJAY BAGHEL:  
SHRI SUNIL KUMAR SONI:  
SHRI ARUN SAO:

Will the Minister of JAL SHAKTI be pleased to state:

- (a) whether piped drinking water being provided by the Government is supplied after treatment;
- (b) if so, the details thereof;
- (c) whether the Government is aware that many areas of Chhattisgarh State are affected by Fluoride contamination;
- (d) whether the Government has done any work for providing clean drinking water to the areas of Chhattisgarh affected by Fluoride contamination;
- (e) if so, the details thereof; and
- (f) the funds allocated and spent for the purpose in the country including Chhattisgarh under the Jal Jeevan Mission from the year 2019 to 2021, State-wise?

**ANSWER**

MINISTER OF STATE FOR JAL SHAKTI  
(SHRI RATTAN LAL KATARIA)

(a) to (e) Government of India in partnership with States, is implementing Jal Jeevan Mission (JJM) to provide potable tap water supply of prescribed quality to every rural household in the country including Chhattisgarh, by 2024. As per Operational Guidelines for the implementation of Jal Jeevan Mission, BIS-10500 protocol is to be followed by States/ UTs for ensuring potable drinking water to rural households.

Under JJM, while planning water supply schemes to provide tap water supply to rural households, priority is given to quality-affected habitations, which *inter alia* includes habitations having Fluoride contamination beyond permissible limit in drinking water sources.

Since, planning, implementation and commissioning of piped water supply schemes based on a safe water source likely to take time, States/ UTs have been advised to install community water purification plants (CWPPs) in such habitations, purely as an interim measure, to provide potable water to every household at the rate of 8–10 litre per capita per day to meet their drinking and cooking requirements.

While allocating the funds to States/ UTs in a particular financial year, 10% weightage is given to the population residing in habitations affected by chemical contaminants including Arsenic and Fluoride, as on 31<sup>st</sup> March of the preceding financial year.

In Chhattisgarh, as reported by the State, at the time of launch of Jal Jeevan Mission, 268 habitations were having Fluoride contamination beyond permissible limit in drinking water sources. Now, such 150 habitations are left.

(f) The State/UT-wise details of fund allocation, fund drawn and reported fund utilizations under JJM including Chhattisgarh for 2019-20 and 2020-21 is at **Annex–I** and **Annex–II** respectively.
