GOVERNMENT OF INDIA
MINISTRY OF HEALTH AND FAMILY WELFARE
DEPARTMENT OF HEALTH AND FAMILY WELFARE

LOK SABHA
UNSTARRED QUESTION No.1940
TO BE ANSWERED ON 30th JULY, 2021

STATES REELING UNDER SECOND WAVE OF COVID-19

1940 SHRI VIJAYAKUMAR (ALIAS) VIJAY VASANTH:
SHRI GNANATHIRAVIAM S.:
SHRI BHAGWANT MANN:

Will the Minister of **HEALTH AND FAMILY WELFARE** be pleased to state:

(a) whether the States like Kerala, Maharashtra, Punjab, and Rajasthan etc. are still reeling under second wave of COVID-19 and the cases have not reduced as per projections;

(b) if so, the details and the present status thereof, State/UT/week-wise during the last twelve weeks;

(c) whether the steps taken by the Centre and the States to control the spread of pandemic have not yielded the desired results; and

(d) if so, the details thereof along with further action taken by the Government thereon and the present status of vaccination for all age groups in the country, State/ UT-wise?

ANSWER
THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND
FAMILIY WELFARE
(DR. BHARATI PRAVIN PAWAR)

(a) to (d) As on 28th July 2021, the trajectory of cases in the country after showing a resurgence from mid-February 2021, peaked in May 2021, is now registering a sustained and considerable decline.

However, Kerala and Maharashtra are still recording high number of COVID cases while certain north-eastern states are showing upward trend. States like Punjab and Rajasthan are showing a decreasing trend of COVID-19 cases.

The status of COVID-19 cases during the last twelve weeks as reported by the states/UTs is at **Annexure I.**

Although health is a state subject, Government of India has provided the required technical support and has also supported the states through logistic and financial support to further strengthen the existing health infrastructure to tackle COVID-19 pandemic.

Some of the ongoing initiatives to further strengthen healthcare infrastructure include:

- A three-tier arrangement of dedicated COVID-19 health facilities [(i) COVID Care Center (CCC); (ii) Dedicated COVID Health Centre (DCHC) and (iii) Dedicated COVID Hospital (DCH)] has been implemented in the country to reduce the risk of cross infection to non-COVID patients as well as to maintain continuity of non-COVID essential health services in the country.
- Government of India has roped in tertiary care hospitals under other ministries to supplement the hospital facilities. Further, many large temporary treatment facilities were established by DRDO to manage surge in COVID-19 cases in the country. The isolation bed capacity and ICU bed capacity was also enhanced continuously.
- The daily liquid medical oxygen (LMO) supply was increased by enhancement of LMO production in steel plants as well as in other LMO plants. Further, restrictions were also imposed on industrial use of oxygen.
- Online digital solutions viz. Oxygen Demand Aggregation system (ODAS) and Oxygen Digital Tracking System (ODTS) have been developed to ascertain the demand for medical oxygen from all medical facilities and to track their transportation.
- To avoid wastage of medical oxygen, guidelines on rational use of oxygen were issued on 25th September 2020, and further revised and disseminated to States on 25th April 2021.
- To generate oxygen at the health facility level, PSA plants are being established in each district hospitals to reduce the burden on the medical oxygen supply grid across the country.
- Further, to fast-track the availability of Medical Oxygen in rural and peri-urban areas, more than 39,000 oxygen concentrators have been allocated to various States.
- A COVID Drugs Management Cell (CDMC) has been set up in the Department of Pharmaceuticals (DoP) to oversee the management of smooth supply of drugs used in COVID-19 management.
- A Drugs Coordination Committee (DCC) has been constituted as an institutional mechanism under Department of Pharmaceuticals for efficient decision making on all the issues with respect to COVID-19 related drugs including availability through inter-departmental consultations.
- All States/UT and State Drugs Controllers have been requested to verify stock of the drug and check other malpractices and take effective steps to curb hoarding and black marketing of Remdesivir.
- Ministry of Health & Family Welfare continues to provide technical guidance for managing various aspects of COVID-19. So far more than 150 guidelines/advisories/SoPs/plans have been provided to States/UTs.
- Further COVID-19 treatment protocols and advisories both for adults as well as pediatric age groups were issued and widely disseminated to promote rational use of drugs and oxygen.
- Under the National COVID Vaccination Program, Government of India is procuring vaccines and providing them free of cost to States and UTs. As on 25th July 2021, a total of about 44.91 crore doses have been supplied to States/UTs from all sources i.e Government of India's Covid vaccine

supply free of cost to all States/UTs, State/UTs and Private Hospitals procured Covid vaccine. Present State/ UT-wise status of vaccination as reported by states on 28th July 2021.

Union Government has provided financial support to States/UTs for ramping up Health Infrastructure and support all aspects of management of COVID-19.

- During the F.Y. 2019-20, funds to the tune of Rs.1113.21 crore was released to the States/UTs under NHM.
- In September 2020, the Union Government allowed the states to spend maximum 35% of annual allocation of funds under SDRF for the financial year 2019-20. The ceiling was further enhanced to 50% during the financial years 2020-21 and 2021-22 for containment measures of COVID-19.
- During the FY 2020-21, funds to the tune of Rs.8257.88 crore has been released to the States/UTs towards the India COVID-19 Emergency Response and Health System Preparedness Package.
- In addition, 'India COVID-19 Emergency Response & Health System Preparedness Package: Phase-II' has also been approved by the Cabinet with Rs 23,123 crores (with Rs. 15,000 Cr as Central Component & Rs 8,123 Cr as State component) and is to be implemented from 1st July 2021 to 31st March 2022.

State/UT/week-wise status of Cases during the last twelve weeks
