

**GOVERNMENT OF INDIA  
MINISTRY OF HEALTH AND FAMILY WELFARE  
DEPARTMENT OF HEALTH AND FAMILY WELFARE**

**LOK SABHA  
UNSTARRED QUESTION NO.1139  
TO BE ANSWERED ON 3<sup>rd</sup> DECEMBER 2021**

**VACCINATION OF CHILDREN**

**1139. SHRI RAM MOHAN NAIDU KINJARAPU:**

Will the Minister of **HEALTH AND FAMILY WELFARE** be pleased to state:

- (a) the total number of children who have been vaccinated Hepatitis-B birth dose, BCG, IPV, first dose of Measles and first dose of DPT from 2018-19 to 2020-21, year-wise, vaccine-wise and State/UT-wise; and
- (b) details of the observed trends in child vaccination coverage across different vaccines and reasons for low coverage, if any?

**ANSWER**

**THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE  
(DR. BHARATI PRAVIN PAWAR)**

- (a) & (b) The total number of children vaccinated with Hepatitis-B birth dose, Bacillus Calmette Guerin (BCG), Inactivated Poliovirus Vaccine (IPV), first dose of Measles containing vaccine (MCV) and first dose of Diphtheria Pertussis Tetanus (DPT) containing vaccine from 2018-19 to 2020-21, year-wise, vaccine-wise and State/UT-wise is placed at Annexure I to Annexure VI.

There has been an increasing trend in child vaccination coverage across different vaccines from 2018-2019 to 2019-2020. However, due to COVID-19 pandemic and subsequent restricted movement, there was a slight decrease in number of children vaccinated in 2020-21 as compared to 2019-20. To cover up the gap, the Government had conducted Intensified Mission Indradhanush from time to time.

## Total number of children vaccinated with Hepatitis B- birth dose.
