PM GatiShakti- National Master Plan (NMP) would be an integrated plan depicting the economic zones and the multimodal connectivity infrastructure with an objective to holistically integrate the interventions of various Ministries / Departments and address missing gaps to ensure seamless movement of people, goods & services. To attain this objective and overcome the challenge of breaking silos, intensive and regular coordination between various Ministries / Departments of Government of India along with the State Governments and private sector industries / experts / stakeholders have been carried out during the planning and implementation stages.
