To facilitate this, National, State and ULB level committees on water/ sewerage/ river/ water body coordination shall be represented by members of rural areas also, especially for peri-urban areas (zones of transition from rural to urban land). Further, under AMRUT 2.0, there will be a capacity building convergence also between urban and rural, wherever feasible.**

**(b) : Both SBM-U 2.0 and AMRUT 2.0 have been launched recently on October 1, 2021 and no funds have been sanctioned so far.**
