- (ii) The Component 'B' of the NPDD scheme "Dairying through Cooperatives" has the aim to increase sale of milk and dairy products by increasing farmer's access to organized market, upgrading dairy processing facilities and marketing infrastructure and enhancing the capacity of producer owned institutions, thereby contributing to increase in return to milk producers in the project area.

The detail of budget estimates/revised estimates and expenditure/releases to States under NPDD scheme during each of the last five years and current year (as on 20.07.2022) is as under:
