(c): PM MITRA Parks are envisaged to be set up at strategic locations, as ready to move, ready to start (through plug and play facilities), with common industrial infrastructure and facilities, allowing integration of supply and value chains in a contiguous area. The key criteria of good connectivity to the nearest Port / Dedicated Freight Corridor / Industrial Corridor/Textiles Cluster, Reliable Power Supply and Water availability and Waste Water Disposal system is envisaged to reduce logistic cost of Industry. Further, it is intended to equip the sector with world-class facilities for both industrial units and workers working and staying in and around MITRA Park
