ANSWER

THE MINISTER OF STATE FOR JAL SHAKTI

(SHRI BISHWESWAR TUDU)

(a) The National Perspective Plan (NPP) was prepared by the then Ministry of Irrigation (now Ministry of Jal Shakti) in August 1980 for development of water resources through inter basin transfer of water, for transferring water from water-surplus basins to water-deficit basins. Under the NPP, the National Water Development Agency (NWDA) has identified 30 links (16 under Peninsular Component & 14 under Himalayan Component) for preparation of Feasibility Reports. Details and status of the proposals for inter-state linking of rivers under the Inter Linking of Rivers Programme is furnished at **Annexure**.

(b) & (c) As per information provided by the Government of Bihar, the State is prone to floods, having flood prone area of 68.80 lakh hectare. Predominantly, Northern Bihar gets affected by floods every year due to heavy rainfall in the upper catchment areas, which mainly lie in Nepal, whereas, Southern Bihar faces problem of flash flood as well as drought.

(d) The Government is pursuing the inter-linking of rivers (ILR) Program in a consultative manner. The implementation of the ILR projects is based on the consensus and agreement among the concerned States.
