

**GOVERNMENT OF INDIA  
MINISTRY OF HEALTH AND FAMILY WELFARE  
DEPARTMENT OF HEALTH AND FAMILY WELFARE**

**LOK SABHA  
UNSTARRED QUESTION NO. 707  
TO BE ANSWERED ON 26<sup>th</sup> July, 2024**

**BREAST AND CERVICAL CANCER**

**707. SHRI SHAFI PARAMBIL**

Will the **MINISTER OF HEALTH AND FAMILY WELFARE** be pleased to state:

- (a) the total number of women who have died due to breast and cervical cancer during the last ten years, State-wise;
- (b) the measures taken/proposed to be taken by the Government to create awareness among women to prevent the incidents of breast and cervical cancer in the country;
- (c) whether the Government is supporting the NGOs and organisations that are engaged in breast and cervical cancer awareness programs in the country; and
- (d) if so, the details thereof?

**ANSWER**

**THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE  
(SHRI PRATAPRAO JADHAV)**

(a) : As per the Indian Council of Medical Research (ICMR) - National Cancer Registry Programme (NCRP) data, the estimated number of mortality of Breast and Cervical Cancer during 2014-2023 in the country, State/UT wise is as per Annexure I and Annexure II respectively.

(b) : The Department of Health & Family Welfare, Government of India, provides technical and financial support to the States/UTs under the National Programme for Prevention and Control of Non Communicable Diseases (NP-NCD) as part of National Health Mission (NHM), based on the proposals received from the States/UTs and subject to the resource envelope. The programme focusses on strengthening infrastructure, human resource development, health promotion & awareness generation for prevention, early diagnosis, management and referral to an appropriate level of healthcare facility for treatment of the Non-Communicable Diseases (NCDs) including Breast Cancer and Cervical Cancer.

A population-based initiative for prevention, control and screening for common NCDs i.e. diabetes, hypertension and common cancers (Oral, Breast and Cervical) has been rolled out as a part of Comprehensive Primary Health Care in the country under NHM. Screening of these common NCDs is an integral part of service delivery under Ayushman Arogya Mandir (erstwhile Ayushman Bharat – Health and Wellness Centres).

In June, 2022 National Technical Advisory Group on Immunization (NTAGI) had recommended the introduction of HPV vaccine in the Universal Immunization Program for 9 to 14 year old adolescent girls. The interim Union budget 2024-2025 stated to encourage vaccination for girls in age group of 9 to 14 years for prevention of Cervical Cancer.

Further initiatives for increasing public awareness about NCDs including Breast & Cervical Cancer and for promotion of healthy lifestyle includes observation of National Cancer Awareness day and World Cancer Day on 7th November and 4th February respectively, every year and use of print, electronic and social media for continued community awareness. Furthermore, healthy eating is also promoted through Food Safety and Standards Authority of India (FSSAI). Fit India movement is implemented by Ministry of Youth Affairs and Sports, and various Yoga related activities are carried out by Ministry of AYUSH. In addition, NP-NCD gives financial support under NHM for awareness generation (IEC) activities for NCDs to be undertaken by the States/UTs as per their Programme Implementation Plans (PIPs).

National NCD Portal has been rolled out by the Government of India in 2018 under NP-NCD for NCD screening and management and ensuring continuum of care. This portal enables population enumeration, risk assessment and screening for five common NCDs (Hypertension, Diabetes, Oral, Breast & Cervical Cancer) of 30+ population.

(c) & (d) : NGOs/Organisations are not supported under the National Programme for Prevention and Control of Non Communicable Diseases (NP-NCD).

## ANNEXURE-I

Estimated Mortality of cancer cases in India by different State/UT - Breast cancer (2014-2023) - Females
