(a): The Government has been implementing the Centrally Sponsored Scheme (CSS) for development of infrastructure facilities for the judiciary since 1993-94, to augment the resources of the State Governments for the construction of judicial infrastructure in the district and the subordinate courts. There are five components covered under the scheme, viz., court hall, residential units, lawyers' halls, toilet complexes and digital computer rooms for the convenience of lawyers and litigants. While the development of infrastructure in the district courts is primarily the responsibility of the State

Governments, the Central Government supplements the resources of the State Government through the said scheme. The Central Government has allocated Rs. 4,244 crore during the last 5 years under the scheme and Rs. 998 crore for the current financial year. The details of funds allocated in the last 5 years under the scheme is as follows:-
