

**GOVERNMENT OF INDIA  
MINISTRY OF HOUSING AND URBAN AFFAIRS  
LOK SABHA  
UNSTARRED QUESTION NO. 664  
TO BE ANSWERED ON NOVEMBER 28, 2024  
SMART CITY PROJECTS**

**NO. 664. SHRI ANAND BHADAURIA:**

**Will the Minister of HOUSING AND URBAN AFFAIRS be pleased to state:**

- (a) the definition of smart city under 100 smart city projects;**
- (b) the details of fund allocated, released and utilized for development of 100 smart cities in the country since its inception till date, year and smart city-wise;**
- (c) the targeted dates by which 100 smart cities would be developed, city-wise; and**
- (d) the reasons for delay in development of smart cities, smart city-wise?**

**ANSWER**

**THE MINISTER OF STATE IN THE  
MINISTRY OF HOUSING AND URBAN AFFAIRS  
(SHRI TOKHAN SAHU)**

- (a) As stated in the Smart Cities Mission guidelines, there is no universally accepted definition of a Smart City. It means different things to different people. The conceptualization of Smart City, therefore, varies from city-to-city and country-to-country, depending on the level of development, willingness to change and reform, resources and aspirations of city residents. In the approach to the Smart Cities Mission, the objective is to promote cities that provide core infrastructure and give a decent quality of life to its citizens, a clean and sustainable environment and application of 'Smart' Solutions. During the course of mission implementation, the cities and State Government have evolved their own understanding and definition of what a smart city is.**

**Some typical features of comprehensive development in Smart Cities include, *inter-alia*, promoting mixed land use in area-based developments; housing and inclusiveness; creating walkable localities; preserving and developing open spaces; promoting a variety of transport options vis. Transit Oriented Development (TOD), public transport and**

...2/-

last mile para-transport connectivity; making governance citizen-friendly and cost effective; giving an identity to the city based on its main economic activity; and applying Smart Solutions to infrastructure and services in area-based development in order to make them better. However, the cities may use some of these features, while implementing the program, based on their local needs.

- (b) Under the Smart Cities Mission (SCM), the Central Government has a total outlay of ₹48,000 crore for the 100 cities. As on 15.11.2024, the Central Government has released ₹47,225 crore to States/Union Territories under SCM, out of which ₹44,626 crore (i.e. 94% of the total Central share released) have been utilized. The year-wise and city-wise details of funds released and utilized are given at Annexure.
- (c) As on 15.11.2024, under the Smart Cities Mission (SCM), work orders have been issued in 8,066 projects amounting to ₹1,64,669 crore, of which 7,352 projects amounting to ₹1,47,366 crore (i.e. 91% of total projects) have been completed, as per the data provided by 100 Smart Cities. Thirteen (13) cities have completed all of their projects undertaken in the Smart Cities Mission, followed by forty-eight (48) cities with more than 90% completed projects and another twenty-three (23) cities with more than 75% completed projects. Remaining 714 projects amounting to ₹17,303 crore are currently in implementation stage. On the request received from various State/UT Governments, the period of SCM has been extended up to 31<sup>st</sup> March, 2025.
- (d) It is pertinent to mention that 'Land' and 'Colonization' are State subjects. Further, as per the 12<sup>th</sup> Schedule of Indian Constitution (Article 243W), Urban Planning including Town Planning is the responsibility of Urban Local Bodies (ULBs)/ Urban Development Authorities. However, Government of India views high urbanization as an opportunity towards aspirations of faster economic development. Government of India supplements the efforts of the States through schematic interventions/ advisories, whereas the implementation of projects is done by the respective cities.

As apprised by the Smart Cities, the delay in completion of projects can be largely attributed to varying reasons including, *inter alia*, legal issues, delay in obtaining clearances from different departments, land acquisition, construction in hilly areas, challenges in vendor and resource availability in small & medium cities.

**Annexure**

**Reply to part (b) of Lok Sabha Unstarred Question No. 664 for answer on 28.11.2024 regarding Smart City Projects**

**Central funds released and utilized for development of 100 smart cities in the country since inception of the smart city project till date, year-wise and smart city-wise**

**(in ₹ crore)**
