ANSWER

THE MINISTER OF STATE FOR PANCHAYATI RAJ

(PROF. S. P. SINGH BAGHEL)

(a) The e-Panchayat Mission Mode Project (MMP) is one of the Mission Mode Projects under the Digital India Programme. The primary objectives of the project are: Strengthening Panchayati Raj Institutions by enhancing their efficiency and transparency in governance and service delivery; automating the Panchayat functions such as planning, budgeting, accounting, monitoring, and social audit to reduce manual errors; facilitating electronic service delivery for rural citizens; and providing digital tools to enable Panchayat officials to carry out their functions effectively.

Building on the achievements of the past, under the e-MMP Project, in the year 2020 the Ministry had launched the eGramSwaraj, an Enterprise Resource Planning (ERP) Solution for Panchayati Raj Institutions. This application encompasses all aspects of Panchayat functioning viz. planning, budgeting, accounting, monitoring, asset management etc., on a single digital platform including online payments. So far, 2.54 lakh GPs have prepared and uploaded their Gram Panchayat Development Plans (GPDPs) for 2024-25.

Further, 2.41 lakh Gram Panchayats have completed online transactions for 15th Finance Commission grants for 2024-25. State wise adoption of eGramSwaraj is given at **Annexure-I**.

Also, for strengthening the transparency and accountability at grassroots level; the Ministry has rolled out an application - AuditOnline under e-panchayat Mission Mode Project (MMP). It allows for online audit of Panchayat accounts and records detailed information about internal and external audit. For audit year 2022-23, 2.58 lakh Audit Plans have been created and 2.57 lakh Audit Report have been generated.

The Ministry has also introduced applications such as Meri Panchayat and Panchayat Nirnay to improve transparency and efficiency in Panchayat governance. While Meri Panchayat makes information on planning, activities, and work progress accessible to the public, Panchayat Nirnay enhances transparency and management in Gram Sabha proceedings.

(b) The Ministry of Panchayati Raj has undertaken several measures to ensure digital inclusivity and ease of access under the e-Panchayat MMP, including, development of User-Friendly Software Applications like eGramSwaraj and AuditOnline; providing multilingual Support for these online applications by integrating with Bhashini; and Training and Capacity Building of the Elected Representatives and officials of the Panchayati Raj Institutions on using digital tools.

Further, to enable Panchayats in remote areas to access digital services, under the revamped Rashtriya Gram Swaraj Abhiyan (RGSA), based on the proposal in their Annual Action Plans, the Ministry has been supplementing the efforts of States/UTs by providing support at limited scale for procurement of computers.

(c) & (d) For improving the outcomes of e-MMP Project and better Governance at the grassroots, the Ministry has been regularly engaging with the States/UTs and other stakeholders and based on the feedback received, required improvisations and enhancements are being effected into the existing applications like eGramSwaraj, Training Management Portal, etc., as well as new applications like Samarth Application, Meri panchayat App, Panchayat Nirnay App, etc. have been developed.
