- ii. On the basis of requirement projected, Department of Fertilizers allocates sufficient/adequate quantities of fertilizers to States by issuing monthly supply plan and continuously monitors the availability.
- iii. The movement of all major subsidized fertilizers is monitored throughout the country by an online web-based monitoring system called Integrated Fertilizer Monitoring System (iFMS);
- iv. Regular Weekly Video Conference is conducted jointly by DA&FW and Department of Fertilizers with State Agriculture Officials and corrective actions are taken to dispatch fertilizers as indicated by the State Governments.

The distribution of fertilizers within the State at district level is done by the concerned State Government.
