India's export situation demonstrates robust resilience and growth. In the fiscal year 2024-25, the country's overall exports reached an all-time high of US\$ 824.96 billion, marking a significant growth of 6.02% compared to US\$ 778.13 billion in 2023-24. Despite persisting geopolitical challenges, this positive trend continued into the current fiscal year (April-May 2025), with overall exports of US\$ 142.12 billion, a notable increase of 5.52% over the US\$ 134.69 billion recorded in the corresponding period last year. This consistent performance underscores India's ability to navigate global uncertainties and maintain a strong foothold in international trade.
