(SHRI ASHWINI VAISHNAW)

(a) to (c) : Presently, total 52 Nos. of Level Crossings (LCs) exist on Alwar-Jaipur section, out of which 27 Nos. LCs have been sanctioned for elimination by the works of Road Over Bridges / Road Under Bridges (ROBs/RUBs), which are at various stages of planning and execution.

During 2014-25 (June'25), total 29 Nos. ROBs/RUBs have been constructed on Alwar-Jaipur section, in lieu of LCs etc.

Sanctioning and execution of works of Road Over Bridges/ Road Under Bridges (ROBs/RUBs) is a continuous and ongoing process on Indian Railways. Such works are prioritized and taken up on the basis of its impact on safety and mobility in train operations and impact on road users.

Nos. of ROBs/ RUBs constructed on Indian Railways during the period 2004-14 vis a vis 2014-25 (June'25) is as under:

Period	ROBs/ RUBs constructed
2004-14	4,148 Nos.
2014-25 (June'25)	13,426 Nos. (including 1562 Nos. in the State of Rajasthan)

During current financial year 2025-26 (up to June'25), 15 Nos. of ROBs/RUBs have been constructed in the State of Rajasthan.

Completion & commissioning of ROB/RUB works depends on various factors like cooperation of State Governments in giving consent for closure of LC, fixing of approach alignment, approval of General Arrangement Drawing (GAD), land acquisition, removal of encroachment, shifting of infringing utilities, statutory clearances from various authorities, law and order situation in the area of project / work sites, duration of working season in a year for the particular project / area due to climatic conditions etc. All these factors affect the completion time of the projects / works.
