

GOVERNMENT OF INDIA
MINISTRY OF CHEMICAL AND FERTILIZERS
DEPARTMENT OF FERTILIZERS

LOK SABHA

UNSTARRED QUESTION NO 1104 TO BE ANSWERED ON: 05.12.2025

Development of Mobile Monitoring System

1104: Shri Virendra Singh:

Will the Minister of CHEMICALS AND FERTILIZERS be pleased to state:

- (a) whether the Government proposes to develop a mobile monitoring system or portal to check black marketing and hoarding of fertilizers, if so, the details thereof;
- (b) whether the farmers in Chandauli district suffered losses due to technical flaws in the fertilizer distribution system or negligence of dealers and if so, the action taken against the persons found responsible therefor; and
- (c) whether the Government has made any assessment regarding the quantum of paddy yield likely to decline due to shortage of DAP and other fertilizers and if so, the details of estimated decline thereof?

ANSWER

THE MINISTER OF STATE IN MINISTRY OF CHEMICAL AND FERTILIZERS
(SMT. ANUPRIYA PATEL)

- a) Department of Fertilizers has implemented Integrated Fertilizers Management System (IFMS) since 2016. It monitors the production, dispatches, receipts and

sales of fertilizers from point of production/import port to District warehouses, wholesalers and retailers. To achieve more visibility and transparency in the fertilizer supply chain, acknowledgement at the last point sale (retail point), is done. Subsidy is paid to the Fertilizer companies on the basis on sale of acknowledged stock through Point of Sale (PoS) mediated sale by Aadhaar based authentication of buyer. Besides, Department of Fertilizers has also developed a dashboard which can be accessed by authorized users at <https://urvarak.nic.in>. The dashboard is developed to facilitate easy monitoring by various Stake holders viz. State Agriculture Departments, District Collectors and State Marketing Federations. The State Governments are also monitoring the availability and supply of fertilizers through iFMS and e-Urvarak Dashboard portal to check black marketing and hoarding.

(b) No, sir.

(c) The availability of DAP and other fertilizers remained adequate in the country during the ongoing Rabi 2025-26 season.
