

GOVERNMENT OF INDIA
MINISTRY OF JAL SHAKTI
DEPARTMENT OF WATER RESOURCES, RIVER DEVELOPMENT & GANGA REJUVENATION
LOK SABHA

UNSTARRED QUESTION NO. 1900

ANSWERED ON 11.12.2025

DAM REHABILITATION AND IMPROVEMENT PROJECT

†1900. SMT. DELKAR KALABEN MOHANBHAI:

Will the Minister of **JAL SHAKTI** be pleased to state:

- (a) the total number of dams identified for rehabilitation under Dam Rehabilitation and Improvement Project (DRIP) Phase-II, State/UT-wise;
- (b) the details of the total funds allocated and released under these phases, State/UT-wise including Dadra and Nagar Haveli;
- (c) the number of dams rehabilitated so far; and
- (d) the measures taken under DRIP to establish early warning systems and prepare emergency action plans for dam safety, State-wise?

ANSWER

THE MINISTER OF STATE FOR JAL SHAKTI

(SHRI RAJ BHUSHAN CHOUDHARY)

(a) As per the approval of the Union Cabinet for the externally funded Dam Rehabilitation and Improvement Project (DRIP), Phase-II and Phase-III, a total of 736 dams have been identified for rehabilitation and safety enhancement across 19 States and 2 Central agencies. State-wise details of these identified dams are provided in **Annexure-I**.

(b) As per the approval of the Union Cabinet, the total cost of the DRIP, Phase-II and III Scheme is Rs. 10,211 crore. This provision covers 19 States and 3 Central Agencies, to be utilized over a 10-years period (2021–2031). Of this, the outlay for Phase-II is Rs. 5,107 crore, while Phase-III accounts for Rs. 5,104 crore.

The Scheme follows a funding pattern (External: Counterpart) : 70:30 for General Category States, 80:20 for Special Category States, and 50:50 for Central Agencies. The ‘External’ component refers to the loan assistance provided by the World Bank and the Asian Infrastructure Investment Bank (AIIB). Loan disbursements are made on a quarterly basis, aligned with the expenditure incurred by the implementing agencies.

Details of fund allocation and expenditure, agency-wise, as on 15th November 2025 are provided in **Annexure-II**.

Further, Union Territory of Dadra and Nagar Haveli is not part of DRIP Ph-II & III Scheme.

(c) As on 30th November 2025, major physical rehabilitation works have been completed at 31 dams under DRIP Phase-II.

(d) Under DRIP Phase II, implementing agencies are regularly sensitized on the importance of Early Warning Systems (EWS) installation and Emergency Action Plans (EAPs) preparation. States are encouraged to establish EWS using DRIP funds as a key non-structural safety measure. Technical assistance, including training programmes, is also provided to support Dam Break Analyses and the formulation of dam-specific EAPs to guide states in preparing effective safety plans.

During DRIP Phase-I (2012–2021), implemented with financial assistance from the World Bank, Emergency Action Plans were prepared for 210 dams across seven States — Jharkhand (3), Karnataka (22), Kerala (51), Madhya Pradesh (25), Odisha (22), Tamil Nadu (85), and Uttarakhand (2). Building on this progress, under the ongoing DRIP Phase-II, EAPs have so far been prepared for 12 dams by implementing agencies.

ANNEXURE-I

ANNEXURE REFERRED TO IN REPLY TO PART (a) OF UNSTARRED QUESTION NO. 1900 TO BE ANSWERED IN LOK SABHA ON 11.12.2025 REGARDING “DAM REHABILITATION AND IMPROVEMENT PROJECT”.

S. No.	State/Agency	Number of dams identified for rehabilitation under DRIP-II & III Scheme		
		Ph II	Ph III	Total
1	Andhra Pradesh WRD	19	12	31
