GOVERNMENT OF INDIA
MINISTRY OF ELECTRONICS AND INFORMATION TECHNOLOGY
LOK SABHA
UNSTARRED QUESTION NO. 2931
TO BE ANSWERED ON: 17.12.2025

GLOBAL CAPACITY CENTRES IN ANDHRA PRADESH

2931. SHRI B K PARTHASARATHI:
   SHRI BASTIPATI NAGARAJU:

Will the Minister of ELECTRONICS AND INFORMATION TECHNOLOGY be pleased to state:
(a) the number of Global Capacity Centres (GCCs) that have been constructed in tier 2 and tier 3 cities across the country especially in Andhra Pradesh, district wise;
(b) the total annual revenue generated by GCCs present in tier 2 and tier 3 cities, year and State-wise;
(c) whether National framework to guide States on promoting GCCs in tier II cities has been framed by the Union Government;
(d) if so, the details thereof and if not, the reasons therefor;
(e) whether in the framework Union Government is likely to financially assist States in attracting GCC at tier 1 and tier 2 cities; and
(f) if so, the details thereof and if not, the reasons therefor?

ANSWER
MINISTER OF STATE FOR ELECTRONICS AND INFORMATION TECHNOLOGY
(SHRI JITIN PRASADA)

(a) to (f): Government of India is actively promoting the growth of the IT sector across the country. The performance of this sector over the last 5 years and estimates for 2024-25 are mentioned below:

(in billion dollars)

	2019-20	**2020-21**	**2021-22**	**2022-23**	**2023-24**	**2024-25(E)**
Export revenue	147	152	178	194	199.5	224.4
Domestic revenue	44	45	49	51	54.4	58.2
Total Revenue	191	196	227	245	254	282.6

(E) = Estimate   *Source: NASSCOM*

This strong growth momentum has created a favourable ecosystem for the expansion of Global Capability Centres (GCCs) in India. At the same time, GCCs themselves have also contributed to this growth of the IT sector.

India currently hosts more than 1,750 Global Capability Centres (GCCs) with about 2,975 GCC units across the country. Over 220 units are located in Tier-2 and Tier-3 cities which reflects the increasing decentralisation of GCCs beyond metropolitan centres.

These GCCs together generated USD 64.6 billion in revenue during FY 2024–25.

As per industry's estimate, India's Global Capability Centre (GCC) market is projected to reach USD 110 billion by 2030. The number of GCCs in the country is expected to grow from the current levels to around 2,400–2,550 by 2030

Strengthening the GCCs

To further strengthen the GCC ecosystem, the Union Budget 2025–26 announced the formulation of a National Framework to guide States in promoting GCCs in Tier-II cities.

This framework suggest measures for enhancing the availability of talent and infrastructure, building byelaw reforms, and mechanisms for collaboration with industry.

Several States, including Andhra Pradesh, Karnataka, Telangana, Uttar Pradesh and Madhya Pradesh, have already notified dedicated GCC or IT/ITeS policies to attract and expand GCC operations in Tier-2 and Tier-3 cities.

The proposed national framework is intended to act as an enabling and guiding mechanism for States.

Financial incentives for GCCs are implemented through State-specific policies, while the Union Government supports the ecosystem through digital infrastructure, skilling initiatives, and ease-of-doing-business reforms.
