

GOVERNMENT OF INDIA
MINISTRY OF JAL SHAKTI
DEPARTMENT OF DRINKING WATER AND SANITATION
LOK SABHA
UNSTARRED QUESTION NO. 1111
ANSWERED ON 05.02.2026

FHTCS UNDER JJM IN CHHINDWARA DISTRICT

†1111. SHRI BUNTY VIVEK SAHU

Will the Minister of JAL SHAKTI be pleased to state:

- (a) the number of rural households provided with Functional Household Tap Connections (FHTCs) so far in Chhindwara district of Madhya Pradesh under the Jal Jeevan Mission (JJM) along with the percentage coverage of total rural households thereunder;
- (b) the key steps and innovations adopted by the Union Government and the State Governments to achieve the 'Har Ghar Jal' target in Chhindwara district and the estimated timeline fixed for achieving universal coverage in the said district; and
- (c) the current status of providing tap water connections in Government schools and Anganwadi centres in Chhindwara district and the action plan made to cover the remaining institutions?

ANSWER

THE MINISTER OF STATE FOR JAL SHAKTI
(SHRI V. SOMANNA)

(a) to (c) Government of India is implementing Jal Jeevan Mission, in partnership with States to make provision of tap water connection to every rural household of the country, including those in the Chhindwara district of Madhya Pradesh.

At the start of the Mission, in Chhindwara district, around 0.88 lakh rural households were reported to have tap water connections. So far, as reported by the State, around 2.14 lakh rural households have been provided with tap water connections under JJM. Thus, as on 28.01.2026, out of 3.52 lakh rural households in the district, more than 3.02 lakh (85.84%) are reported to have tap water supply in their homes and works for the remaining households are at various stages of implementation. Similarly, State has reported tap water supply connection in 2,244 (69.88%) schools and 1,245 (59.06%) anganwadi centres in Chhindwara district.

Drinking water being a State subject, under JJM, responsibilities for planning, approval, implementation, operation and maintenance of drinking water supply schemes lie with State/ UT governments. Government of India supplements the efforts of the State/ UT government by providing technical and financial assistance. As numerous projects are implemented concurrently

at various levels across the States for achieving the envisaged objectives, project-wise details of individual projects/ schemes for rural water supply projects are maintained at the State Government level.

A number of steps have been taken to plan and implement JJM in the whole country including Madhya Pradesh, with speed, *inter alia*, including joint discussions and finalization of saturation plans and annual action plans (AAP) of States/ UTs, regular review of implementation, workshops/ conferences/ webinars for capacity building, training, knowledge sharing, field visits by multi-disciplinary team to provide technical support, etc. A detailed Operational Guideline for the implementation of JJM; Margdarshika for Gram Panchayats & VWSCs to provide safe drinking water in rural households and Guidelines on a special campaign to provide piped water supply in anganwadi centres, ashramshalas and schools have been shared with States/ UTs to facilitate effective planning and implementation of Jal Jeevan Mission. For online monitoring, JJM–Integrated Management Information System (IMIS) and JJM–Dashboard has been put in place. Provision has also been made for transparent online financial management through Public Financial Management System (PFMS).

Further, to achieve 100 per cent coverage through continued implementation of mission with focus on quality of infrastructure and Operation & Maintenance of rural piped water supply schemes for long term sustainability and citizen centric water service delivery, Hon'ble Finance Minister during her budget speech 2025-26 has announced extension of Jal Jeevan Mission until 2028 with enhanced total outlay.
