**Completion of Railway project/s depends on various factors which include the following:**

- **Land acquisition by State Government**
- **Forest clearance**
- **Shifting of infringing utilities**
- **Statutory clearances from various authorities**
- **Geological and topographical conditions of area**
- **Law and order situation in the area of project site**
- **Number of working months in a year for particular project site etc.**

**All these factors affect the completion time and cost of the project/s**

#### **Railway Electrification:**

**Electrification of railway network on Indian Railways has been taken up in mission mode. So far, about 99.4% of Broad Gauge (BG) network has been electrified. The electrification in remaining network has been taken up. Electrification carried out during 2014-25 and before 2014 is as under:**

<b>Period</b>	<b>Route Kilometer</b>
<b>Before 2014 (about 60 years)</b>	<b>21,801</b>
<b>2014-25</b>	<b>46,900</b>

**In Uttar Pradesh, entire existing BG network has been electrified including that in Mainpuri district. Further, all new line / multitracking projects are being sanctioned and constructed with electrification.**

## **Amrit Bharat Stations:**

**Ministry of Railways has launched Amrit Bharat Station Scheme for redevelopment of stations with a long-term approach.**

**The scheme involves preparation of master plans and their implementation in phases to improve the stations. The master planning includes:**

- **Improvement of access to station and circulating areas**
- **Integration of station with both sides of city**
- **Improvement of station building**
- **Improvement of waiting halls, toilets, sitting arrangement, water booths**
- **Provision of wider foot over bridge/air concourse commensurate with passenger traffic**
- **Provision of lift/escalators/ramp**
- **Improvement /Provision of platform surface and cover over platforms**
- **Provision of kiosks for local products through schemes like ‘One Station One Product’**
- **Parking areas, Multimodal integration**
- **Amenities for Divyangjans**
- **Better passenger information systems**
- **Provision of executive lounges, nominated spaces for business meetings, landscaping, etc. keeping in view the necessity at each station**

**The scheme also envisages sustainable and environment friendly solutions, provision of ballastless tracks etc. as per necessity, phasing and feasibility and creation of city centre at the station in the long term.**

**So far, 1,338 stations have been identified for development under this scheme, out of which 157 stations including Mainpuri Junction station of Mainpuri district, are located in Uttar Pradesh. The names of stations identified for development under Amrit Bharat Station Scheme in Uttar Pradesh are as following:**

- **Shikohabad Junction station: The works of new station building, platform surfacing of platform no. 1/2, improvement of circulating area, parking and Divyangjan facilities have been completed. The work of 12 m Foot Over Bridge has been taken up.**

**Further, development / redevelopment / upgradation / modernisation of stations on Indian Railways is a continuous and ongoing process and works in this regard are undertaken as per requirement, subject to inter-se priority and availability of funds. Development / redevelopment / upgradation / modernisation of a station is carried out based on category of station/condition/traffic handled etc.**

**Indian Railways has a well established mechanism to monitor implementation of projects including their reviews, inspection, check for quality of works and audits. Works are carried out adhering to the standards and specifications laid down in various codes and manuals. Inspections/audits/checks are carried out from time to time by various agencies/officials/multi-disciplinary teams as per laid down instructions and actions for correction including damages are taken immediately. This is a continuous and ongoing process.**

**Development / Upgradation of railway stations is complex in nature involving safety of passengers & trains and requires various statutory clearances such as fire clearance, heritage, tree cutting, airport clearance etc. The progress also gets affected due to brownfield related challenges such as shifting of utilities (involving water/sewage lines, optical fibre cables, gas pipe lines, power/signal cables, etc.), infringements, operation of trains without hindering passenger movement, speed restrictions due to works carried out in close proximity of tracks and high voltage power lines, etc. and these factors affect the completion time.**

**Development / upgradation / modernisation of stations including under Amrit Bharat Station Scheme is generally funded under Plan Head-53 'Customer Amenities'. The details of allocation and expenditure under Plan Head-53 are maintained Zonal Railway-wise and not work-wise, or station-wise, or constituency wise or state-wise. Uttar Pradesh is covered under the jurisdiction of five railway zones, namely East Central Railway, Northern Railway, North Central Railway, North Eastern Railway and West Central Railway. For these zones, an allocation of ₹ 3,794 crore has been made for the financial year 2025-26, out of which an expenditure (up to February, 2026) of ₹ 3,694 crore has been incurred so far.**
